

Atmos

Cyber incident response process

Contact ATC hotline

1800 572 102

response@atmosgroup.com.au

Your organisation experiences a cyber incident - big or small

Call the ATC 24 / 7 / 365 hotline on 1800 572 102

Atmos will make contact within 2 hours (and typically within 5 minutes) to assess and triage the incident

Atmos will appoint you a dedicated First Response Manager, whose focus is to support your organisation through the incident response lifecycle

Atmos confirms the engagement with you including appointing the Atmos First Response Panel for technical support

Atmos will guide you through the entire cyber incident to help you contain and recover systems and address any applicable notification obligations

At the end of the event Atmos can discuss remediation options with you to better protect your organisation going forward

Atmos

Atmos is Australia and New Zealand's leading legal and advisory firm specialising in cyber, privacy and digital risk services. Our well-established and experienced team brings unparalleled expertise and a commitment to excellence, providing you with the highest level of service.

We have one of the largest First Response teams in the APAC region. Our First Response Managers are on call 24 / 7 / 365 and have extensive experience supporting clients with all aspects of a cyber incident.

Our unique First Response strategy enables clients to mobilise a team of fit-for-purpose experts through one phone call, giving clients the freedom to navigate and respond to cyber incidents with confidence while the Atmos team of experts get you back to business.
